| F    | Pan Head Screw, 1/4-20 x 2"           | 4    | 8068-004   |

## Tools Required:

- (1) #2 Phillips Screwdriver
- (1) 7/16" wrench

\*Part number will vary based on the option selected at the time of purchase.

1. To add a tubular frame extension to your hand truck first remove the handle from the frame and discard the gray end caps and fasteners.
2. Slide the tubular frame extension (A) into the frame side channels.
3. Snap handle brackets (B and C) into the outer frame channel, aligning the holes and the top of the bracket with the frame. Secure with 1/4-20 x 1-3/4" bolts (E) or 1/4-20 x 2-1/4" bolts for hand trucks with brakes and lock nuts (D).
4. Slide the handle into the brackets and secure with 1/4-20 x 2" bolts (F) and lock nuts (D).
